This is Export.
This is Wales.

Credas	06
Delio	07
Link Data Management Solutions	09
Mazuma	10
Sonovate	11
W2 Global Data Solutions	13

Pierhead, Senedd and
Wales Millennium Centre, Cardiff Bay

Wales is a self-governing constituent country of the UK and the Welsh Government is the devolved Government for Wales.

Devolved since 1999, the Welsh Government's decision-making powers within a small and joined-up country mean we can cut red-tape and act fast.

They also mean we are responsible for our own economic development, working with business to create a prosperous, green and equal economy.

Wales has a strong industrial heritage that has shaped our confident, creative and ambitious economy of today. We have strength in depth in advanced manufacturing, creative industries, energy and environment, financial and professional services, food and drink, life sciences, and technology.

Our commitment to sell Wales to the world has never been more focussed and this mission provides an ideal platform for us to build on established links and discuss future export opportunities.

Wales means business.

Founded in 2016, **Credas** provided a facial recognition ID Verification service, which quickly grew with additional checks allowing clients to conduct full Anti-Money Laundering, Know Your Customer, and Right to Work/Rent checks. Credas' IDV and AML technology is now widely used across 40 different sectors, completing over 180,000 checks a month. Our app is the highest rated in the UK with over 150,000 reviews and is a regular member of the UK's top 10 business apps.

Product/Service

Our new enterprise platform offers an end-to-end onboarding solution that includes smart data capture forms, eSignatures, journey builder, identity verification, open banking, and custom branding modules, all available via a Portal or through API integration.

Objectives

Credas will be attending Money 20/20 to showcase our new enterprise platform and how it can help the finance sector automate its onboarding and compliance checks through the use of our slick, simple, and user-friendly technology.

Since 2015, **Delio** has been at the forefront of digitally transforming the private markets landscape. Our highly configurable, white-labelled technology and enterprise-grade deal structuring solutions enable financial institutions to seamlessly connect their clients and partners with the most desirable alternative assets.

Delio powers the private market operations of more than 90 banks, wealth managers, investment firms and angel investor networks worldwide.

Product/Service

Acting as an end-to-end digital infrastructure for all private markets activity, the Delio Core platform can be configured around specific operational, commercial and regulatory needs. This means that deal origination, distribution, transaction management and reporting are all integrated seamlessly into elegant workflows that reduce operational friction, improve regulatory governance, and offer investors a class-leading user experience.

Delio Structuring offers a suite of highly configurable, enterprise-grade investment vehicles and bespoke structures that are individually designed to meet your strategic requirements. These solutions offer a simplified, frictionless and digitally delivered investment process, while outsourcing all of the legal, regulatory and operational complexities.

Objectives

Having established itself as one of the leading players in the private markets technology space, Delio is now growing its presence across Europe. Our highly configurable solutions enable us to serve multiple use cases and we would welcome the opportunity to discuss how these could serve new clients at Money 20/20 Europe.

Growth.

The vibrant capital city of Wales – Cardiff is one of the fastest growing cities in the UK. It is also just two hours on the train from London.

LDMS is a leading provider of loan and credit management software across Europe. Our platforms are live in 10 countries, supports over €60 billion in assets and have been proven over the past 20 years.

Product/Service

LDMS products provide management of loan and credit products for the complete lifecycle, from Origination through to termination or collections.

Combining a CRM, Contact Management System, Payments Engine, Communications Engine, workflow and much more into a single simple web interface. LDMS solutions drive improve digital engagement, lower costs and increase efficiency in the servicing of any lending or credit product.

Objectives

Meet and discuss opportunities with vendors in the loan and leasing spaces looking for a modern digital solution to contract servicing.

Chris Whitcombe
Managing Director

Founded in 2006, **Mazuma** was the world's first subscription accountancy service for small and micro businesses. Since then, Mazuma has grown into a multi 7 figure business, with thousands of clients across the UK.

In 2019, Mazuma began developing its own proprietary software platform, MazApp, which underpins the operations of Mazuma and provides significant efficiency savings and service enhancements ahead of traditional accountancy providers.

Product/Service

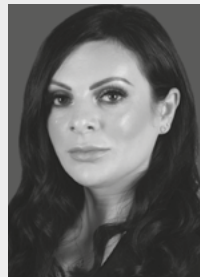

The main problem with all other accountancy software is that it requires the small business owner to spend their time completing data entry, and then they require an accountant on top of that to complete the year-end accounts and tax returns.

Data entry completed by business owners is notoriously inaccurate and often requires complete re-working by an accountant before accurate financial data can be provided on their performance.

Mazuma provides a full end-to-end service – an accountant and tech built into one small subscription fee.

Objectives

Mazuma will be exporting its technology outside of the UK, so the objective of this visit is to scope out opportunities and potential partners to enable this.

Sonovate is the leading provider of embedded finance solutions for the contingent workforce. It caters to recruitment businesses, consultancies, and labour marketplaces who place contractors and freelancers around the world.

Sonovate's platform delivers swift credit decisions, same-day funding, credit insurance, and collections services, empowering companies to concentrate on expanding their business, confident that funds are in place. To date, Sonovate has lent over £3.5 billion in 44 countries.

A key component of Sonovate's embedded finance strategy is the opening of its suite of services through APIs, allowing the contingent labour ecosystem to use fintech capabilities, empowering fast and easy payments across the workforce supply chain.

Product/Service

- Financial Services
 - Payments
 - Invoice factoring
-

Objectives

Sonovate is attending Money 20/20 to demonstrate the innovative fintech solutions Wales has to offer. The

company aims to further its network and relationships within the financial services industry, explore trends in the sector and discuss what lies ahead for financial services. They are also looking to make contacts with potential partners and customers.

Decision making.

Wales is a connected country with a devolved Government for fast decision making from Ministers. The Senedd is home to our Welsh Parliament.

W2 provides a RegTech orchestration platform and has access to leading data and service providers ensuring that up to date and reliable information is available via a single access point; enabling businesses to satisfy regulatory requirements and make reliable informed decisions about customers.

W2's market leading software is trusted by 100+ clients and a consistent flow of new business deals. The ease and integration of regulatory compliance software through a single, streamlined API leads to an increase in both the quality and efficiency of the customer onboarding journey. Founded in 2011 and based in Wales, W2 has enjoyed consistent growth, with a team of 20+ strong both in head office in Cardiff, and remotely around the UK and Europe. W2's mission is simple; complexity should never be a barrier to business.

Product/Service

W2 provides Know Your Customer (KYC), Anti-Money Laundering (AML), Identity Verification, and Know Your Business (KYB) through a single orchestration platform. W2 provides the right solution on a global scale, for both onboarding and ongoing monitoring of customers. W2 offers the most customer focused compliance solution available, allowing active management of risk.

Objectives

As Money 20/20 sits as one of the key payments' events worldwide, W2 is keen to build relationships and network with new partners, particularly those based outside the UK. Currently, W2

has a network of 70+ partners across various focus areas in the industry and have identified multiple businesses attending, sponsoring, and exhibiting where there is a good opportunity for mutual growth.

Money 20/20 is also an opportunity for business development. To gain support from the Welsh Government to support introductions into Dutch or European firms where W2's offering fits their requirements is invaluable. As a small team with big ambitions, this support will be a key driver in ensuring 2023 is another successful year for W2.
