

E-learning

Short online modules to be completed in your own time. Topics include -
Pesticide Safety - safe storage, use and disposal of pesticides, Lowering the Risk of Diffuse Pollution (water quality), Slurry Management - silage, slurry and rainwater infrastructure management.

Agrisgôp

Form a group with other farmers within your river catchment to tackle the issues and develop solutions together.

Masterclasses

If you are eager to learn more and improve your knowledge and confidence around water quality, masterclasses are just the ticket for you. Keep an eye on the Farming Connect website for masterclasses available for all registered Farming Connect businesses.

what Farming
Connect support
is available...

Advisory Service

Up to 70% funding towards bespoke advice for your business. An advisor can look at the farm's approach to the use of water, it can be analysed and identify opportunities for improvements that will support your business overall performance.

Accredited Training Courses

40% funding towards short, accredited, face-to-face training courses including a large range of pesticide course and Basic Management and Maintenance of ponds and Wetlands.

Mentoring

Up to 15 hours of farmer to farmer mentoring available to help you overcome the challenges through informal discussions and visits to each other's farms.

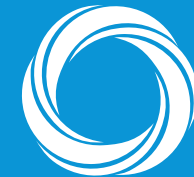

For more information contact your local Development Officer, or call the service centre.
