Manteisiwch ar gyfraniad o hyd at 70% tuag at

CYNLLUNIO RHEOLI MAETHOLION

Take advantage of up to 70% contribution towards

NUTRIENT MANAGEMENT PLANNING

Gall Cyswllt Ffermio roi cyngor ar reoli pridd a maetholion gan gynnwys samplau pridd.

Farming Connect can provide advice on soil and nutrient management including soil samples.

Mae mynd i'r afael â rheoli pridd, maetholion, a tail buarth yn hanfodol os ydych yn anelu at redeg busnes gyda'r canlyniadau gorau.

Addressing soil, nutrient and farmyard manure management is essential if you are aiming to run a business with top performing results.

- Argymhellion ar ganlyniadau dadansoddi pridd ar gyfer Ph, ffosffad (P), potash (K) a magnesiwm (Mg) a math o bridd
- Bydd y cynllun yn gosod y mewnbynnau maetholion i naill ai godi, lleihau neu gynnal ffrwythlondeb y pridd
- Bydd hefyd yn cyfrifo'r gyfradd gwrtaith fwyaf priodol ar gyfer y cnwd
- Rhoddir cyngor ar gyfradd chwalu ac amseriad tail organig a rhoi cyfrif am eu cyfraniad maethol
- Asesu gwedd y pridd a strwythur y pridd i wella'r broses rheoli pridd ar gyfer cynhwysedd dal dŵr a draeniad a fydd yn arwain at well defnydd o faetholion a llai o risg o golli pridd a dŵr ffo

- Recommendations on soil analysis results for Ph, phosphate (P), potash (K) and magnesium (Mg) and soil type
- The plan will lay out the nutrient inputs to either lift, reduce or maintain soil fertility
- Calculate most appropriate fertilizer rate for the crop
- Advice provided on application rate and timing of organic manures and account for their nutrient contribution
- Assess soil texture and soil structure to improve soil management for water holding capacity and drainage which will lead to improved nutrient use and reduced risk of soil loss and runoff

Am ragor o wybodaeth cysylltwch â'ch Swyddog Datblygu Lleol, neu ffoniwch y ganolfan wasanaeth.

Rydym yn croesawu galwadau'n Gymraeg
