

# Administering PAYE Using Accounting Software

**Are you a food or drink manufacturer looking to streamline your PAYE administration?**

This webinar is designed specifically to offer expert insights into managing PAYE in-house using leading accounting software packages.

**We will look at:**

**Setting Up PAYE Correctly:** Learn the initial steps to ensure compliance and efficiency.

**Registering with HMRC:** Navigate the registration process with ease.

**Embedding Effective Routines:** Implement best practices to support seamless PAYE operations within your business.

**Why Attend?**

Explore how software solutions like Sage, Xero, and QuickBooks can simplify PAYE administration and understand the benefits of in-house management versus subcontracting.
