Honey Cluster

Wele'n felys, melys fêl

Nawr, yn fwy nag erioed, mae'n bwysig bod ni'n cefnogi ein busnesau lleol. Yma ar brosiect Cywain, rydym wedi dylunio map sy'n amlinellu'r holl wenynwyr yng Nghymru sydd wedi cofrestru drwy brosiect Cywain neu Clwstwr Mêl sy'n cynhyrchu mêl i'w werthu, er mwyn i chi allu canfod y cynhyrchwyr agosaf atoch chi.

Mae prynu'n lleol yn golygu llai o filltiroedd bwyd, cefnogi eich gwenynwr lleol a'r economi, a diogelu'r amgylchedd.

Mae mêl o Gymru'n werthfawr iawn am ddau reswm. Yn y lle cyntaf, mae llawer iawn o'n mêl yn gwbl bur a heb ei basteureiddio, ac yn cael ei gynhyrchu o neithdar naturiol. Gallwch flasur gwahaniaeth. Yn ail, mae llawer llai o fêl yn cael ei gynhyrchu yng Nghymru nag yng ngweddill y DU. O ganlyniad i faint o law bendigedig sy'n syrthio yng Nghymru, mae ein tymor tyfu'n fyrrach na rhai o'r hinsoddau sychach - 200 diwrnod o'i gymharu â 300 diwrnod mewn rhannau eraill o'r DU.

A nawr, am gyfnod byr, bydd Cywain yn cynnig hadau blodau gwyllt am ddim pan fyddwch yn prynu mêl gan gynhyrchwyr lleol ar y map. Plannwch flodau a bwydych wenyn y dyfodol, er mwyn i chi allu parhau i fwynhau ein mêl lleol anhygoel.

Discover Wales' liquid gold

Now, more than ever, it's important that we support our local businesses. Cywain have designed a map to highlight all the beekeepers in Wales registered through Cywain or Honey Cluster who produce honey to sell, so you can find the one nearest to you.

Buying locally means less food miles, supporting your local beekeeper and economy, and protecting the environment.

Welsh honey is very precious for two reasons. Firstly, much of our honey is unadulterated and unpasteurised, produced from natural nectar. You can taste the difference. Secondly, there is much less honey produced in Wales than the rest of the UK. Having lots of beautiful Welsh rain means that we have a shorter growing season than some drier climates - two hundred days rather than the three hundred days that other parts of the UK enjoy.

And now, for a limited time, Cywain will be offering free wildflower seeds with honey purchases from the producers shown on the map. Plant some flowers and feed the bees of tomorrow, so you can keep enjoying our exquisite local honey.
