The gateway to innovating
your business

From fundamental research to new product commercialisation, we believe Welsh businesses deserve the best guidance and support.

You can apply innovation to any part of your business. Whether you need collaborators or academic help; outside expertise or new designs; advice on IP or funding towards new equipment, we want to help you.

That's why we've developed a suite of support called SMART. Part-funded by the European Regional Development Fund, the Welsh Government works alongside the Fund to help create jobs and improve people's lives by driving cutting-edge research and innovation.

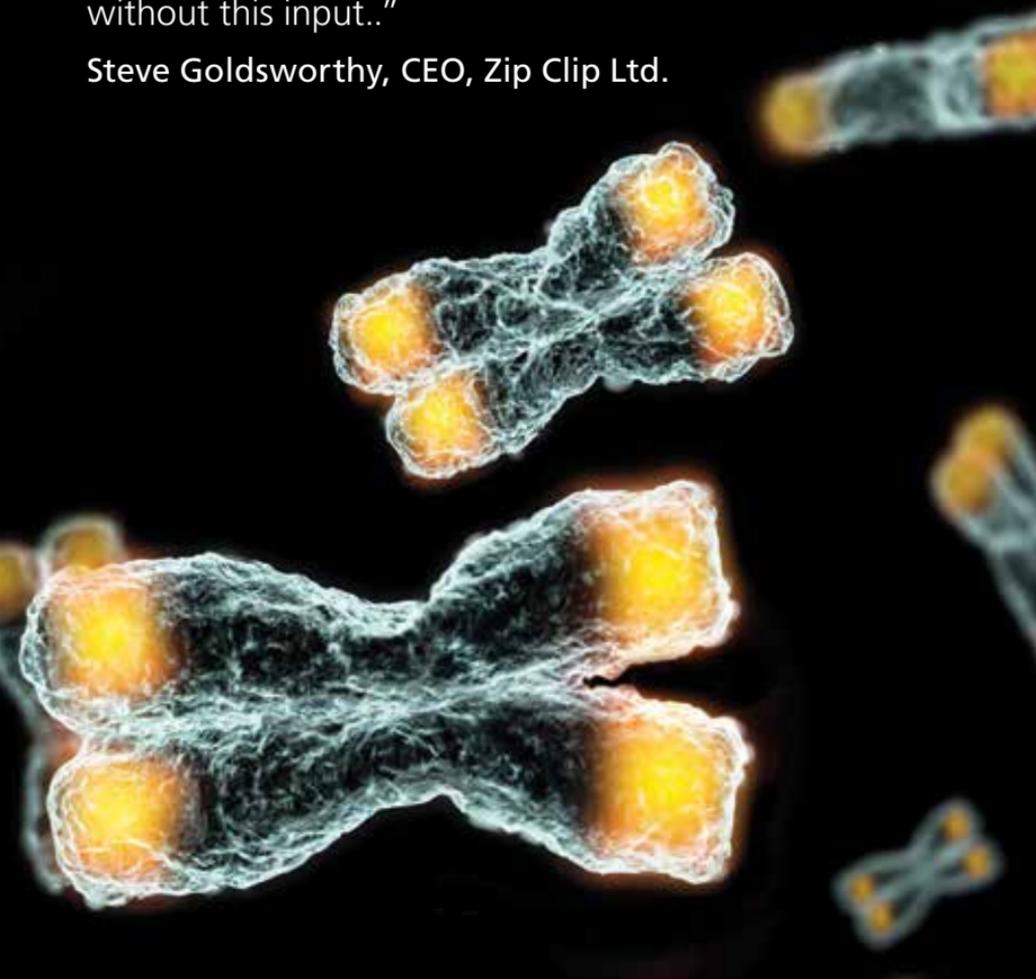

Take a glance at how we can help. Better still, give us a call. **See how you can get SMART with your business.**

“We are looking to increase our product range and headcount partly down to the support of Innovation Specialists... we have won local and international awards which simply would not have been possible without this input..”

Steve Goldsworthy, CEO, Zip Clip Ltd.

At a glance

- 3-day health-check by industry specialist
- Fully-funded
- Manufacturing or design focussed
- Delivered via external expertise
- 5-day fully-funded follow-up work
- Tailored to the business
- Improves productivity, quality or efficiency...
- ...or develops new products or services

A hand is shown holding a glowing blue sphere. The background is dark blue with intricate circuitry patterns and glowing lines, suggesting a high-tech or digital environment. The hand is positioned in the center, with the fingers slightly curled around the sphere. The sphere itself is bright blue with a grid-like pattern of glowing points and lines, giving it a digital or data-like appearance. The overall aesthetic is futuristic and technological.

Co-investing in business Research, Development
and Innovation for sustainable growth

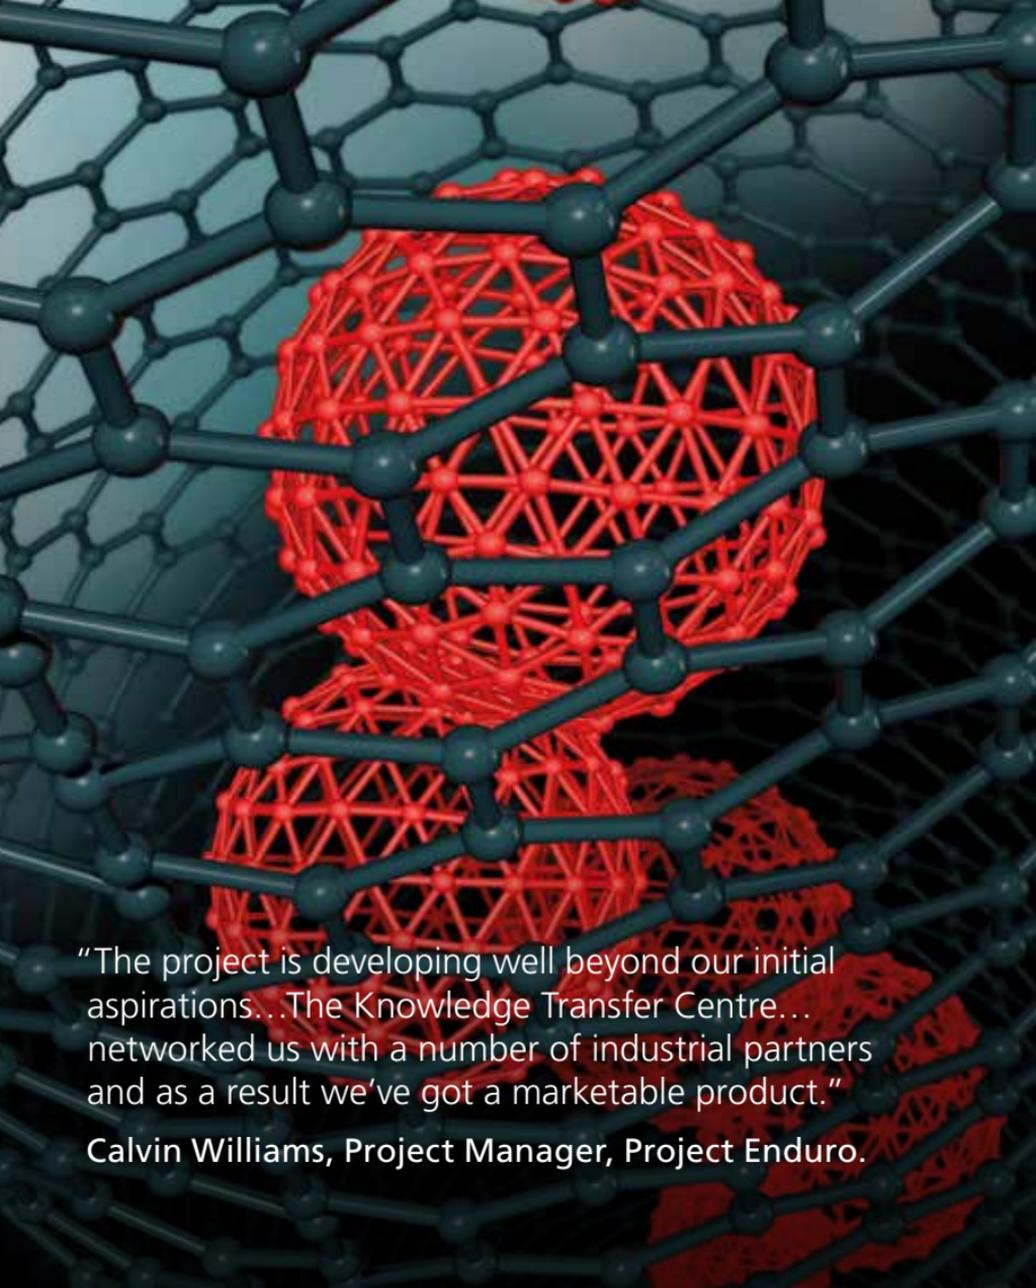

“Welsh Government funding has been superb...
It allows us to be able to conduct proper and
thorough research and think outside the box.”

**Steve Hudd, Managing Director,
Byerley Technologies Ltd.**
