

SMART FIS helps you improve people's lives by driving cutting-edge research and innovation.

It is open to any organisation wishing to engage in research, development and innovation (RD&I), including businesses, the third sector, public sector bodies, academic institutions and research organisations.

Our support is delivered by a team of specialist engineers, scientists, industrialists and intellectual property experts, helping your organisation achieve "Innovation Excellence". This increasingly means a focus on decarbonisation and the circular economy.

Busnes Cymru | Business Wales

SMART FLEXIBLE INNOVATION SUPPORT

It's about three things:

- **Expertise** – we work in Wales but have access to a UK-wide network of specialists.
- **Money** – funding can be key, so we can help you access finance.
- **Support** – specialist advice from an approved framework of advisors.

If you have a viable business plan, and would like to move to the next step of developing an innovation plan find out more by visiting businesswales.gov.wales/innovation/support-and-funding/flexible-innovation-support
