Lessons learned:	<p>Unfortunately we were unsuccessful in our application for funding. Feedback from Sports Wales was that we were too play focused which they do not fund and in order for our application to be successful we would have to demonstrate a more sport focused approach. After discussion with Jonathon from Sports Wales we have decide that for the present we will put the application on hold and perhaps look to re-apply next year. We would need to consider how or if a more sports focused approach would be suitable for any of our projects and if so what form that would take. PDO to investigate possibilities further before the next application.</p>	

This document will be used as evidence for our ARWAIN grant and may also be used to inform future grant funding applications.
