THE FUTURE OF WELSH PEATLANDS CONSULTATION EVENING

Do you own or manage an area of peatland? Want to know more about carbon schemes? We would like to hear your ideas on the future of peatlands and funding opportunities in Wales.

Snowdonia National Park Authority are working with the Crichton Carbon Centre and Bangor University to gather views on peatlands from those that know them best: landowners, farmers and tenants.

Join us for an evening to discuss the benefits and challenges of managing and restoring peatlands. We will be asking what you think about your peatlands and taking your ideas forward to inform the new agri-environment scheme.

WHEN & WHERE?

Monday 2nd March

6:30 – 9:00 PM

**DOLGELLAU
RUGBY CLUB**

Marian Mawr
Enterprize Park,
Dolgellau, LL40 1UU
